| • Tailwind | • Typescript | • Git / Github |
| • Sass, | • Express | • Figma |
| • JavaScript | • NodeJS | |
| • Axios | • MongoDB | |

EXPERIENCE

FOUNDER AND LEAD INSTRUCTOR

Tech Talent Universe (Self Employed)

March 2022 – Present

Asaba, Delta State, Nigeria

- Founded "Tech Talent Universe," a successful coding boot-camp aimed at empowering aspiring developers with practical skills.
- Developed a comprehensive front-end curriculum covering HTML, CSS, JavaScript, React.js, and other modern frameworks to meet industry demands.
- Implemented various assessment and evaluation methods to track students' progress and ensure the effectiveness of the curriculum.

FRONT-END DEVELOPER

Tech Studio NG

June 2020 – February 2022

Onikpan, Lagos Nigeria

- Collaborated with cross-functional teams to design, develop, and implement highly interactive and user-friendly web applications.
- Translated UI/UX designs and wireframes into responsive and pixel-perfect web interfaces using HTML, CSS, and JavaScript.
- Implemented modern front-end frameworks like React.js to enhance the performance and maintainability of the web applications.

PROJECT

Technicians Marketplace | *MongoDb, Express, React and NodeJs, a.k.a (MERN STACK)*

[Try it here](#)

- Creatively used the above mentioned web technologies to devise and create "Ollafix," a marketplace software aimed at connecting Technicians with clients, and vice versa.
- Implemented continuous integration and deployment to constantly augment/update the software.

E-commerce Application | *Sass, Axios, Redux, Mockaroo, Strip and (MERN STACK)*

[Try it here](#)

- Skilfully full-fledged a multifunctional E-commerce design, Api, mock data, and interactive interface as prototype aimed at clients, furthermore use to demonstration my front-end skill.
- Designed Logo, images, and other graphics needed to enhance the UI, using Photoshop/CorelDraw
